Experience

Hedge / Contracted Lead iOS Developer

August 2019 – Present

- Developed and designed native iOS app utilizing different APIs
- Created user testing sessions that served to enhance the experience of the entire application as well as find issues
- Communicated with CEO and other stakeholders to ensure timely delivery of all goals

Make School / iOS Instructor

June 2017 – August 2017, Tokyo & New York City

- Coordinated with two other instructors in managing class of 40+ Japanese students
- Led students through technical practices such as code readability, structure, and debugging tasks

Make School / iOS Instructor & Curriculum Developer

June 2016 – August 2016, San Francisco

- Taught students of all ages iOS programming skills, application design, and utilization of different frameworks
- Assisted students in planning product demos to industry experts
- Developed tutorials on Google Maps API for students to incorporate into their own applications

Projects

Egghunt

June 2019 – Present

AR, location-based scavenger hunt app for cash prizes

- Iterated through MVPs while gathering user feedback
- Utilized XCode and Sketch to build rapid prototypes
- Showcased to Penn State to utilize with their first-year students

Kratos Fitness Platform

June 2018 – Present

Discover, create and share new workouts with others

- Built using native iOS and Firebase backend
- Implemented UX strategies to ensure great product experience

Education

Penn State University

May 2020, Main Campus

BS IST: Design & Development | 3.40 GPA

Make School

Summer 2014 & 2015

iOS Development Student

Skills

Design

Prototyping, Wireframing, UI Design, Sketching
